## NCA 4-DAY MASTERCLASS OVERVIEW

The goal of this 4-Day Masterclass is to support each participant in the mastery of diagnostic and treatment presented in the NCA Foundation and Advanced Courses to obtain maximum clinical results. This will be achieved via three main methods: 1) Venue will serve as a 'clinical theater' where participants can observe treatments close-up, while having the opportunity to clear up any doubts via Q&A. 2) Participants will treat outside (non-participant) patients under the supervision of Dr. Burris, receiving feedback on those treatments. 3) Participants will receive treatment so that they can experience first hand the techniques to be mastered.

Below is a general outline of the Masterclass. Timing and material may vary slightly according to cases presented

### NCA MASTERCLASS OUTLINE

PART I: FOUNDATION MATERIAL with some Extras!

**Thursday, April 25 9:30am-3:00pm**

9:30am- 11:00am

The first part of the day will be dedicated to treatment of participants by Dr. Burris. As patient, each participant will have the opportunity to experience firsthand the palpatory pressure that Dr. Burris uses as well as experience for themselves treatment effects. At the same time treatments serve as demon-

strations where participants can observe at close range a variety of techniques (treatment/diagnostic/needling) used by Dr. Burris to achieve maximum effect. Participants are free to ask for clarification any aspects of these treatments they may deem helpful. Participants may be asked also to assist in both diagnosis and treatment. These treatments will serve to reinforce material from the Foundation Course as well as provide an avenue to new material as each case may require.
