Getting there: Low cost airlines Vueling and RyanAir both operate regular flights to Santiago at very affordable rates (be careful of the cost of check-in baggage). Make sure to check with [kayak.com](https://www.kayak.com) or with the

airlines directly for options as expedia.com often does not include all low cost options. There are also 4-hour high speed train rides from Madrid.

NCA NEXUS MASTERCLASS OVERVIEW

One goal of this 3-Day Masterclass is to support each participant in the mastery of diagnostic and treatment presented in the NCA Foundation and Advanced Courses to obtain maximum clinical results. This will be achieved via three main methods: 1) Venue will serve as a ‘clinical theater’ where participants can observe treatments close-up, while having the opportunity to clear up any doubts via Q&A. 2) Participants will treat outside (non-participant) patients under the supervision of Dr. Burris, receiving feedback on those treatments. 3) Participants will receive treatment so that they can experience first hand the techniques to be mastered.

The second goal of this Masterclass will be to introduce the technique called **NCA Tracking** which is a speedy but precise diagnostic method which can be used to great effect on any and all levels. A part of this training we will revisit the ‘light touch’ technique some of you may have already seen in previous Masterclasses. We will be adding exercises to make the ‘touch’ more effective. As this will be important on Day 2 when the actual technique is introduced. The Tracking technique will play a major part in the Online Expert Level Course which will be offered in Autumn 2025.

Below is a general outline of the Masterclass. Timing and material may vary slightly according to cases presented

NCA NEXUS MASTERCLASS OUTLINE

Friday, June 20 9:00am-5:00pm

9:00am- 11:40am

The first part of the day will be dedicated to treatment of participants by Dr. Burris. As patient, each participant will have the opportunity to experience firsthand the palpatory pressure that Dr. Burris uses as well as experience for themselves treatment effects. At the same time treatments serve as demonstrations where participants can observe at close range a variety of techniques (treatment/diagnostic/needling) used by Dr. Burris to achieve maximum effect. Participants are free to ask for clarification any aspects of these treatments they may deem helpful. Participants may be asked also to assist in both diagnosis and treatment. These treatments will serve to reinforce material from the Foundation and Advanced Courses as well as provide an avenue to new material as each case may require.
