During the period of European, Australian, and North American Masterclasses, Dr. Burris developed a new and highly effective approach to the Svets that dramatically simplifies the entire procedure while maintaining the same exceptional clinical effectiveness.

These Super Svets are not simply alternative points to the traditional Svets. They represent an entirely new system, with unique relationships and a fundamentally different way of approaching treatment.

The Super Svet Experience is an intensive program dedicated to mastering this breakthrough method. Through focused instruction, live demonstrations, and practical clinical applications, participants

will gain the confidence to integrate Super Svets into their daily practice with precision and ease.

In addition to this new material, Dr. Burris will also present all of the significant discoveries, refinements, and clinical insights he has developed since the 2025 Online Expert Course, ensuring attendees receive the most current and advanced Neoclassical Acupuncture instruction available.
